

To whom it may concern.

My name is Paul Vincent and I have been involved with coaching for 50 years with players from youth hockey to the NHL. I have won a Stanley Cup in 2010 with The Chicago Blackhawks and a collegiate national championship with RPI in 1985. I have personally assisted in the development in over 100 NHL players. In my opinion Michelle Peters is one of the best and most profound people I have ever worked with.

I am referencing this letter to the brilliance of Miss Peters and her professional insight towards understanding functioning movement from the foundation (the feet) upwards. Her knowledge assists in creating balance and strength via sports performance and enhancement with orthotics. I have witnessed firsthand athletic improvement with players that Michelle and I have both consulted, one of whom is a young man that makes his living as a professional athlete within the Florida Panthers organization (NHL). With her knowledge and assistance, she was able to have his athletic position and stance improve from a physiological perspective that he was previously unable to achieve with his feet. As Michelle and I conducted our performance assessment I have personally watched 10 plus athletes become better balanced, coordinated and athletic through the proper manipulation of their feet through the use of specialized orthotics.

Thank you for your time.

Sincerely,

Paul Vincent
